

Reliable isolation transformers from Tufvassons

Tufvassons has a wide range of transformers and over fifty years' experience of making them ourselves. We offer isolation transformers of the highest quality for fixed installation, mounting on a DIN rail, as well as movable versions that are connected with a mains cable. Select products yourself or have our staff guide you to the right power supply.

Optimum isolation, removes interference

The isolation transformer is used when you need to adapt one voltage level to another one, or separate a protective earth from a system earth. It provides optimum isolation, minimises interference and is simple to install – including in the USA thanks to its USA-compatible outlet that is used for 110-volt products. Just like Tufvassons' other products, the isolation transformer is CE-marked and also has short circuit and overload protection.

Type:	TTZ 50/G						
Part. no.:	6745-0042						
Input voltage:	230V, 50-60 Hz.						
Output voltage:	110V						
Rated power:	50VA (0,45A)						
Weight:	0.8 kg						
Encapsulation class:	IP30						
Insulation class:	4.2 kV						
Ambient temperature:	max. 40°C						
Design:	<ul style="list-style-type: none"> · Transformer potted in hard-setting plastic, with grey encapsulation made from impact resistant, self extinguishing thermoplastics. - Double insulated (earth connection not required). - Short circuit and overload protection with thermo protection. - Primary mains cable with European mains plug. - Fully enclosed secondary 2-pole American outlet. 						
Mounting:	Install in any position.						
Manufacturing standard:	<table> <tr> <td>Security:</td> <td>EN 61558-1; EN 61558-2-4</td> </tr> <tr> <td>Emissions:</td> <td>EN 61 000-6-3; EN 61 000-6-4, IEC 62041</td> </tr> <tr> <td>Immunity:</td> <td>EN 61 000-6-1; EN 61 000-6-2, IEC 62041</td> </tr> </table>	Security:	EN 61558-1; EN 61558-2-4	Emissions:	EN 61 000-6-3; EN 61 000-6-4, IEC 62041	Immunity:	EN 61 000-6-1; EN 61 000-6-2, IEC 62041
Security:	EN 61558-1; EN 61558-2-4						
Emissions:	EN 61 000-6-3; EN 61 000-6-4, IEC 62041						
Immunity:	EN 61 000-6-1; EN 61 000-6-2, IEC 62041						
Other information:	If the mains cable or plug is damaged, the transformer must be destroyed/recycled.
